

CISSP Training & Certification Bootcamp Washington, DC, Dulles, VA and San Diego, CA

Course Description

The CISSP is one of the most recognized cybersecurity certifications for professionals in the US and around the World. SecureNinja's CISSP training bootcamp arms you with the knowledge necessary to pass the CISSP certification exam. Whether you choose our instructor-led CISSP training in Washington DC, San Diego CA, Columbia MD, or our live online CISSP certification training, SecureNinja can help you become a Certified Information Systems Security Professional with the highest passing rates in the industry.

CISSP is a [DoD 8140.01 & DoD 8570.01](#) approved baseline certification and meets Government and DoD agencies' compliance with Federal Information Security Management Act (FISMA) and the DoD Directive 8570.1-M. Offered by the International Information Systems Security Certification Consortium, (ISC)2, the certification is both an objective measure of excellence and a globally recognized standard of achievement.

SecureNinja's CISSP boot camp is the highest quality CISSP exam review available today. It is a comprehensive course discussing the entire Common Body of Knowledge relating to Information Systems Security, as determined by [\(ISC\)2](#). The boot camp is designed to help attendees prepare for the certification exam, as well as serve as a learning tool for concepts and topics related to all aspects of Information Systems Security.

Our course contains "checkpoints" that help you self-evaluate your progress and identify knowledge gaps. You will know which key concepts you have a solid understanding of, and which of the CISSP domains you need to spend more time reviewing. SecureNinja's expert instructors will be there every step of the way where you have personal access to the industry's leading authorities on CISSP training and certification. You will benefit from their extensive knowledge base as they teach you tips and tricks for exam-passing success. You will not only receive the knowledge to pass the exam but come back to the job with real-world skills you can apply right away, thus maximizing the return on your training investment.

In addition, all SecureNinja CISSP students will receive a PAID account to the CCCURE CISSP Prep portal with over 2000+ up-to-date preparatory questions and practice exams.

SecureNinja's (ISC)2 CISSP training and certification boot camp is available in weekday or weekend sessions in Alexandria, VA, Dulles, VA, Columbia, MD and San Diego, CA. We also offer convenient Live Online delivery anywhere in the world as well as customized course offerings for groups.

DoD Directive 8570.1-M and 8140.01

CISSP meets Government and DoD agencies compliance with Federal Information Security Management Act (FISMA) and DoD Directive 8570.1-M as well as the updated DoD Directive 8140.01.

What's Included

- Security Operations: Foundational Concepts, Investigations, Incident Management, Disaster Recovery
- Software Development Security: Understanding, Applying, and Enforcing Software Security

Who Would Benefit

This course is primarily for Information Technology Security Professionals who wish to not only prepare to pass the CISSP Exam; but also utilize this course as a launching point for other advanced security certifications such as CISA, CISM, CEH, CHFI, and related courses.

Course Length

- 5 Days
- 40 Hours

CISSP Exam Information

ISC(2) now uses Computerized Adaptive Testing or CAT testing for all English CISSP exams worldwide. CAT testing allows a more precise grading scale and delivers a uniquely tailored exam to each individual. Unlike fixed-form, linear exams, adaptive testing delivers items based on the demonstrated ability of a candidate during the exam.

- Computerized Adaptive Testing (CAT) presenting 100-150 questions
- Duration 3 Hours
- A minimum scaled score of 700 out of 1000 is required to pass

Next Steps

1. Certified Ethical Hacker ([CEH](#))
2. Computer Hacking Forensics Investigator ([CHFI](#))
3. Certified Information Systems Auditor ([CISA](#))

4. Certified Information Security Manager ([CISM](#))
